

### **PART 3 - GCLOBA RECORD OF STEWARDSHIP AND PRIORITIES FOR THE FUTURE**

Dear GCLOBA Member,

In this third installment, we deal with environmental and security challenges facing our School.

By this, we found GCL to be confronted with a myriad of environmental and security challenges that needed to be addressed to make way for sustainable restoration worthy of Model Status.

In February, 2019, we therefore sought and obtained approval to carry out initial restoration works which included fixing of broken fences and raising of School perimeter fence up to a secure height to keep out miscreants and trespassers.

Supervised by a Technical Committee and financed by Class of 1981, these works commenced prior to Lockdown, with Imam Dauda side of the fence almost complete.

Regarding waste dump, we had LAWMA inspect School whereupon the refuse was cleared.

Please find attached the acknowledgement copy of our letter of application to government for approval, approval letter from government, and pictures of Imam Dauda Fence area. **Also find below video links of Fence renovation work in progress.**

Up GCL, Up School!

Kind regards.

Imran 'Dapo Shitta-Bey  
National President, GCLOBA
